

# Bossong

## CAPABILITY STATEMENT

### BUSINESS SUMMARY

Bossong Hosiery Mills is located in North Carolina, manufacturing high quality circular knit products since 1927 and providing employment to over 200 exceptional workers. Bossong is one of the few remaining totally vertical textile facilities in North America and is an SBA Certified Small Business. Our experience in circular knit manufacturing spans nearly a century, and we proudly produce 100% of our products in the USA. Bossong Medical, a division of Bossong Hosiery, is a world class designer and custom manufacturer of innovative medical graduated compression hosiery products, catering to the global private label market.

### CORE COMPETENCIES

Bossong's custom manufacturing capabilities and best-in-class quality assurance are functions of the 'state-of-the-art' knitting equipment operated by management and personnel with vast experience in the space. Products available include:

- Graduated Compression Socks and Stockings
- Anti-Embolism Stockings
- Orthopedic Soft Goods for Knee, Arm, Elbow, Wrist, Ankle and Foot Arch Support
- Compression Tights
- Specialty Seamless Compression Products, Apparel and Technical Sportswear

### DIFFERENTIATORS

Bossong excels in designing, manufacturing, packaging, and distributing cutting edge graduated compression, standard compression and hosiery products to the global private label market by adhering to our ISO 13485 certification and FDA registration for Class I and II medical devices.

Bossong is an agile, experienced, privately held, third-generation family run business with decades of proven performance with an established Berry Amendment Compliant supply chain.

Bossong is a HUBZone Certified Small Business.

### PAST PERFORMANCE

Bossong supplies products to many major retail chains, department stores, discount chains, televised home shopping channels, mail order catalogs, e-commerce channels and medical products distributors. We also specialize in providing white label and OEM manufacturing services to many nationally known brands. Our customers include 3M, Medline, Spanx, Curad, Futuro and Nufabrx. Currently servicing DALC National Contract - Compression Stockings - Contract #36C79120D0010 as a sub-contractor.

### PRODUCTION CAPACITY

Bossong has (256) knitting machines capable of producing up to 300,000 pairs of graduated compression, sheer hosiery, socks and seamless outerwear on a weekly basis. State-of-the-art knitting equipment consists of reciprocating Lonati and Sangiacomo graduated compression machines, Lonati and Matec 400 needle machines, and Large Diameter Santoni seamless machines.
